

## Testimonials - Examples of our work

The Sail Installation went brilliantly. The Head Teacher of the school was especially impressed with how much was completed within the first few days (6th - 8th June) before the children went back to school. The disruption to the adjacent classrooms was very little. The planning was smooth and having the majority of resources arrive together in a container, and workers that were willing to be adaptable to the school working hours made a huge difference. As it currently stands there isn't anything that would need to be done differently from my point of view.

Sam Jackson  
School Shade Project

We love our bright yellow shades!! They allow the children at Reculver to play out in the summer and to have shade to play beneath. We have placed them in positions where even the parents, waiting for their children, can be protected in both the rain and sunshine!!

The work that Shaded Nation carried out for us was of a very high standard - from giving us advice on which shade was best for us and with the budget that we had, to safe and efficient construction of the shades. All the children, staff, and especially our PFTA are really happy with the finished product - Thank you Shaded Nation!!!

Alison Hatch  
Deputy Headteacher, Reculver Primary School

Just a quick email as I have just seen the pictures of the canopy you have installed for us at Arnhem Wharf. The job looks fantastic! Thank you very much for your help for such a great service. We couldn't have asked for a better installation.

Kim Bradley  
Arnhem Wharf Primary School

As the manager of Tiny Steps Day Nursery, I am very pleased with the work and the speed in which it was carried out to get our shade sail fitted. The children enjoy time outside for a large amount of the day and so the shade sail has offered an excellent area where the children can access the curriculum outside without the concern for the weather. The shade sail looks fantastic and many parents and visitors have commented on how great it looks. Thank you for all the hard work your team provided in ensuring we received a fast efficient service.
